

Save money and time with a more efficient water heater

Trading up to a tankless gas water heater is the smart choice.

Rinnai® and DeKalb-Cherokee Gas offer rebate and financing options to make your selection easy and affordable.

A tank may heat and reheat water even when you're not at home, wasting valuable energy. Instead, a Rinnai tankless water heater heats water only when you need it, resulting in less wasted energy.

Gallon for gallon, you'll spend less heating your hot water and say goodbye to waiting for hot water.

Plus, Rinnai tankless water heaters are energy efficient and cut CO2 emissions (as compared with tanks).

Are you ready to reduce energy with hot water on demand from the #1 selling tankless water heating brand? Your family deserves nothing less. Rinnai means top features and benefits plus various sizes, models and capacities. But that's only the half of it. What about the company behind the product?

What does a good, reputable brand like Rinnai bring to the table? And why should it matter to you?

#1. Peace of mind

Rinnai's a rock-solid company. It's been around for almost 100 years – and plans to be around at least 100 more. It's Rinnai's pioneering history of creating value-added products that's made Rinnai one of the world's largest gas appliance manufacturers. And Rinnai's tankless water heaters continue to stay in step with the demands of our changing world.

#2. Made in the USA

Rinnai America Corporation is headquartered in Peachtree City, Georgia. Rinnai is the first company

to manufacture tankless water heaters in North America with the addition of their facility in Griffin, Georgia.

Additionally they are tripling the size of their Peachtree City Headquarters to include a state of the art research and development and training facility.

#3. Product dependability

Rinnai tests its products. Again. And again. In fact, five stages of quality control checks are performed during assembly to ensure Rinnai products reach the highest standards.

What's more, Rinnai products adhere to the strict standards of the American National Standards Institute (ANSI).

#4. Best warranty in the business

Rinnai is so confident in its products that they back them with the best

warranty in the business.

Rinnai tankless hot water heater coverage, for example, includes twelve years for the heat exchanger, five years on parts and one year on labor. You get endless on-demand hot water, space savings, eco-efficiency and peace of mind from the world's most reliable tankless gas water heater.

Whether you need a residential or commercial tankless water heater, a Rinnai® from DeKalb-Cherokee Gas will meet your needs.

Contact D-C Gas for special pricing on Rinnai tankless water heaters and installation cost.

You can finance your tankless water heater plus the cost of installation

Finance both the cost of your Rinnai tankless water heater and installation for one low monthly payment. Then you pay back the loan on your monthly gas bill at special financing rates.

A loan of \$2,000 or more can be financed at 6 percent annual percentage rate.

A loan less than \$2,000 can be financed at 8 percent annual percentage rate. A popular third option is "90 days, same as cash." Any loan of 90 days is at no interest.

All financing is subject to a credit check and a pre approved line of credit.

To apply for a loan you must complete a loan application available at the DeKalb-Cherokee Gas Service Center in Fort Payne or Centre business office.

Broil King®

Great Barbecues Every Time

Every Broil King® gas grill is built to provide unparalleled cooking versatility. No matter what model you choose, the legendary Broil King® cooking system gives you the ability to cook almost anything on your grill in any style you desire.
